

GIVE CARDBOARD A SECOND LIFE

Less waste. Lower costs. More benefits!

Watch the video:

charti**PACK** CP
CARDBOARD PERFORATOR

We support manufacturers and logistics centers in achieving **PPWR** goals through:

- reuse of cardboard boxes
- reduction of packaging waste
- reduced consumption of new cushioning materials
- support for the company's ESG strategy

PPWR (*Packaging and Packaging Waste Regulation*) – EU Regulation on Packaging and Packaging Waste

ESG (*Environmental, Social and Governance*)

– Environment, Society, and Corporate Governance

ChartiPACK CP is a super-fast cardboard perforator that allows you to quickly prepare durable, flexible, and fully eco-friendly package fillers without purchasing additional consumables.

Reuse used cardboard boxes and give them new life – embrace sustainability in your shipment packaging!

OPUS[®]
