## SHREDDERS, BINDING MACHINES, LAMINATORS, TRIMMERS & ACCESSORIES

# BINDING MACHINES

The method of binding documents using plastic or wire combs is widely used all over the world. That makes it the most popular way of binding up to 510 sheets at a time in many sizes. Documents bound this way are convenient because, they laid flat for photocopying, you can remove or add sheets at any time. All you have to do is open the plastic comb, up-date the document and close it again. If you use wire combs, you may have to replace the old comb with a new one.

## OPUS COIL JUMBO

A modern and professional binding equipment designed for binding documents with a spiral comb. The solid metal housing makes the device very durable. Equipped with an electric motor that allows you to bind comb very easily using a rotating roller. Equipped with margin depth adjustment, paper guide, switched off knives and a large container for punch waist.

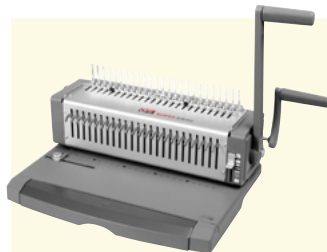

## OPUS OFFICER

Binding equipment designed for rigorous work. New shaped two handed rubber foam comfort grip handle, making punching extremely easy. Punches up to 20 sheets at a time and binds up to 510 sheets using plastic combs.

## OPUS SUPER BONO

New universal binding machine for plastic combs, recommended for offices, print/copy shops, punches up to 22 A4 sheets, binds 510 sheets at once, adjustable margins side guide, 24 selectable punch dies, metalhousing.

- OPUS profiPUNCHBLOCK 3 x 8 mm - 21 selectable punches for binding with plastic combs
- OPUS profiPUNCHBLOCK 3:1 ø 4 mm circular holes - 35 selectable punches for binding with wire combs 3..1"
- OPUS profiPUNCHBLOCK 3:1 ø 4 mm circular holes + thumb cut blade for calendar - 32 selectable punches for binding with wire combs 3..1"
- OPUS profiPUNCHBLOCK 2:1 ø 6 mm circular holes - 23 selectable punches for binding with wire combs 2..1"
- OPUS profiPUNCHBLOCK 4:1 ø 4 mm circular holes - 49 punches for binding with spiral combs 4..1"
- OPUS profiPUNCHBLOCK 3:1 4 x 4 mm square holes - 35 selectable punches for binding with wire combs 3..1"
- OPUS profiPUNCHBLOCK 2:1 6 x 6 mm square holes - 23 selectable punches for binding with wire combs 2..1"
- OPUS profiPUNCHBLOCK 5:1 ø 3,25 mm circular holes - 35 selectable punches for binding with spiral combs 5..1"
- OPUS profiPUNCHBLOCK 3:1 4 x 4 mm square holes + thumb cut blade for calendar - 32 selectable punches for binding with wire combs 3..1"

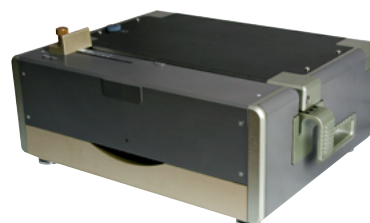

**OPUS** profiMaxPUNCH cassettes

Changeable punch cassettes for profiMaxELPUNCH Punch cassettes available:

- OPUS profiMaxPUNCHBLOCK 3 x 8 mm - 21 selectable punches for binding with plastic combs
- OPUS profiMaxPUNCHBLOCK 3:1 ø 4 mm circular holes - 35 selectable punches for binding with wire combs 3..1"
- OPUS profiMaxPUNCHBLOCK 3:1 ø 4 mm circular holes + thumb cut blade for calendar - 32 selectable punches for binding with wire combs 3..1"
- OPUS profiMaxPUNCHBLOCK 2:1 ø 6 mm circular holes - 23 selectable punches for binding with wire combs 2..1"
- OPUS profiMaxPUNCHBLOCK 4:1 ø 4 mm circular holes - 49 punches for binding with spiral combs 4..1"
- OPUS profiMaxPUNCHBLOCK 3:1 4 x 4 mm square holes - 35 selectable punches for binding with wire combs 3..1"
- OPUS profiMaxPUNCHBLOCK 2:1 6 x 6 mm square holes - 23 selectable punches for binding with wire combs 2..1"
- OPUS profiMaxPUNCHBLOCK 5:1 ø 3,25 mm circular holes - 35 selectable punches for binding with spiral combs 5..1"
- OPUS profiMaxPUNCHBLOCK 3:1 4 x 4 mm square holes + thumb cut blade for calendar - 32 selectable punches for binding with wire combs 3..1"
- OPUS profiMaxPUNCHBLOCK 3:1 ø 4 mm circular holes - 32 selectable punches for binding with wire combs 3..1"
- OPUS profiMaxPUNCHBLOCK 2:1 4 x 5,5 mm rectangular holes - 32 selectable punches for binding with wire combs 3..1"

**OPUS** profiMaxELPUNCH

Stronger professional high performance electric punch with foot pedal, with changeable punch cassettes for perforating documents, recommended for large companies and copy .

**OPUS** Semi - automatic Wire Closer

Professional semi automatic binder for wire combs with feeder for calendar hangers. Perfect machine for all small printing houses or big copy shops specialized in calendar's production

# LAMINATORS

Laminating prolongs the life of documents, and photos, notices and charts. The process of sealing in plastic pouches keeps the colours vivid and in good condition for a long time. Charts and notices especially which can be marked with a water based pen and wipe clean later. The documents secured this way, cannot be changed or interfered with, also protects against tearing, dirt or damage by water.

## OPUS uniLAM A4 Basic

Office laminator up to A4 format with a unique design. It uses modern technology for lamination of heated rollers. Quickly reaches operating temperature. Laminates most popular films (from 100 µm to 160 µm).

## OPUS uniLAM A4

A unique design, easy to use, small compact laminator, with the newest hot roller technology, very short preheating time, 3 to 5 minutes, 2 standard laminating modes for the most popular pouches. Maximum laminating: A4 width, thickness including pouch 0.6 mm, for pouches 80 - 125 microns, no laminating carrier needed, laminating speed: 300 mm/minute.

## OPUS uniLAM A3

Office laminator up to A3 format. Unique design, short preheat time, 3 to 5 minutes. The newest hot roller technology, no need for laminating carrier. Programmed with three laminating modes for pouches: 80 - 175 microns. Maximum: laminating width, 330 mm (A3 format) and of material thickness including pouch: 0.5 mm, 4 roller system.

## OPUS uniLAM A3 basic

The cheapest office laminator in our offer up to A3 size with a unique design. It uses modern technology for lamination of heated rollers. Quickly reaches operating temperature. It has two standard modes for laminating most popular films.

## OPUS profilAM junior A3

Professional laminator with "hot rollers" technology, ensures the highest quality of lamination. Laminator is equipped with temperature control, allowing you to choose the most optimal variant of lamination. High quality, robust construction.

## OPUS rollAM 380

Professional roller laminator for big print/house/copyshops. Modern LCD control panel, individual laminating settings. Silicon rollers covered to improve lamination quality. Maximum laminating width: 380 mm, laminating speed up to 4 m per minute. Laminating foil up to 25 - 250 microns

## OPUS rollAM 720

Professional continuous roll feed Laminator, special silicon covered hot roller system for improved laminating quality and speed. Special rotary trimmer, LCD display control panel, microprocessor to set precise individual speeds and temperatures when laminating. Maximum laminating width 720 mm, speed 4 m per minute, 4 roller system, STAND-BY function, heating time 5 to 6 minutes, maximum foil thickness 250 microns, maximum thickness of document with foil 7 mm, temperatures from 80 to 150°C,

## OPUS AutoLAM A3

Office laminator up to A3 format. Uses hot roller technology. Does not require the use of paper or foil carrier. The "Auto Sense" automatic mode detects film thickness and informs the user about any errors. In manual mode available six programmed lamination modes (for films: 75 µm, 100 µm, 125 µm, 150 µm, 175 µm and 250 µm).

## OPUS rollAM 380 / 720 Super

Professional continuous roll feed Laminator with a top chrome heated roller and special silicon covered bottom roller for improved laminating quality and speed. Special rotary trimmer, LCD display control panel, microprocessor to set precise speeds, temperatures with two infrared sensors for laminating.

## OPUS profilAM A3

Professional laminator with the newest hot roller technology, providing the highest quality lamination for colour photos, foils, photo copies and printed documents. LCD control panel display, timer, temperature settings, roller speeds, giving you the optimal control of the laminator for the best results. Good for intensive use in large offices, universities and print/copy shops. Laminates all sizes up to 325 mm (A3 format).

## OPUS cityLAM A3

Office laminator up to 330 mm (A3 format). Modern design short preheat time. Newest hot roller technology, No laminating carrier needed. 3 Pre programmed laminating modes (pouch: 80 to 200 microns). Maximum thickness documents and pouch 1mm, 4 roller system

## OPUS profilAM A2

Professional fast laminator with "special hot roller" technology, LCD display control panel, designed for intensive use. Lamination width up to 480 mm, speed 1.2 m/minutes, pouch thickness up to 80 - 250 microns, preheating time, 8 minutes, reverse function, temperature up to 160°C, 6 roller system

## OPUS MinuteLAM A3

Modern, easy-to-use office A3 laminator designed for hot and cold lamination. Uses hot rollers technology which provides the best results. Warm-up time of less than 90 seconds. Three standard modes for hot lamination (80, 100, 125, 150 and 175 microns) and cold lamination.

# LAMINATORS

## OPUS SpeedLAM A3

High-speed professional laminator for offices, newest special hot roller technology, up to 330 mm (A3 format), LCD display control panel, 8 roller system, reverse function, heating time 5 minutes.

# THERMAL BINDING MACHINES

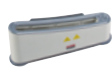

Thermal binding is an easiest way to bind sheets of paper. All you have to do is place the pages in a cover and put them into a thermal binder. The whole process takes only a few seconds, even if you bind 500 pages. Whatever you bind it always looks impressive. It is light, flat and lasts for a long long time. With documents bound this way your company image becomes more and looks professional. There is a big range and variety of covers manufactured by OPUS.

## OPUS TB 250

Small office thermal binding machine, incredibly inexpensive, gives a high performance, modern design, side cooling rack, making the TB250 neat and compact taking only a little space in the office. Binds up to 220 sheets of A4 paper at one time.

Perfect for office use, heavy duty, crosscut shredder, credit card cut out in the paper slot, CD/DVD slot with dot scoring on both sides system, separate pull down tray to catch CD's Shred size 4 x 35 mm pieces, up to 12 A4 sheets at a time, security level P-4, 235 mm feed slot, shreds light staples in paper. 30-litre container.

\* Tested on 70 g/m² paper

## TS 2609 CD / TS 2616 CD SHREDS CD, DVD, CREDIT CARDS

A modern cross-cut paper shredder designed for shredding of documents. Paper slot 265 mm, shred size pieces: TS 2609 CD 2 x 12 mm (micro-cut), security level: P-5 | Tx-5 | Ex-4 / TS 2616 CD 4 x 30 mm, security level: P-4 | Tx-4 | Ex-2. It shreds up to: 11 sheets (TS 2609 CD) / 19 sheets (TS 2616 CD). Also shreds CD/DVD and credit card (separate slot and bin). Functions: automatic cleaning, automatic "start/stop", overheat protection.

## CS 2208 CD

Universal crosscut shredder for medium size offices. 2 slots, paper 220 mm, shreds up to 8 A4 sheets, light staples, shred pieces 2 x 12mm, security level P-5. Slot 2 shreds 1 credit card 'magnetic strip or chip', security level Tx-5, Ex-4, 1 CD/DVD, security level O-2 at a time. Auto start/stop, overheating protection, 22 litre container with small bin inside for shredded CD/DVD and credit cards.

When you want to trim a document to the required format in a neat and accurate manner you can do it with OPUS trimmers and guillotines, simple and easy to use.

# TRIMMERS & GUILLOTINES

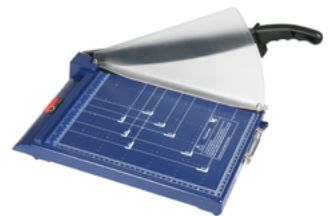

## OPUS EUROCUT A3

Light compact A3 format office trimmer/guillotine. Movable guide makes cutting any paper to a precise size easy. Tough plastic safety guard for blade and clamp to hold the paper, makes working with the Eurocut very safe. Easy to move, well designed handle, paper size guide on the bed, movable guide for precise cutting. OPUS Eurocut A4 and A3 Cuts up to 8 sheets at a time and only weighing 2 kg.

## OPUS EUROCUT A4

Light compact A4 format office trimmer/guillotine. Movable guide makes cutting any paper to a precise size easy. Tough plastic safety guard for blade and clamp to hold the paper, makes working with the Eurocut very safe. Easy to move, well designed handle, paper size guide on the bed, movable guide for precise cutting. Cuts up to 8 sheets at a time and only weighing 2 kg.

## OPUS hobbyCUT A4

Small paper trimmer, with a plastic clamp to hold the paper when cutting, metal base marked with many different sizes and angles, cuts up to 5 sheets at a time Cutting length 320 mm

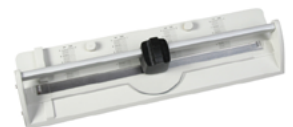

## OPUS ROLOCUT A4

The most inexpensive rotary trimmer for homes and small offices. Simple design, very clear size guide, in millimetres on the base. Solid rotary cutting knife, paper safety clamp bar. Rolocut A4 cuts up to 320 mm and 10 sheets at a time.

## OPUS Solid Trimmer 320

Small rotary trimmer for cutting e.g. printouts for o.pouch cover. Metal base with built-in magnets. With Coverator and Atlas 190 binding machine you will have perfect solution for customizing covers and photobooks.

## OPUS O Corner Cutter+

Professional corner cutter. Interchangeable cutting blades, cuts rounded, straight and angled corners, other types and sizes of cutters available. Comes with a standard 6 mm rounded cutter.

## OPUS standardCREASE 49

Makes a crease mark on paper, card and photos in quick and easy way. Stable and durable metal construction. Two guides to help do precise creasing and perforating. Designed for offices, advertising agencies and perfect for professional photo labs.

# DEVICES FOR FILLING CUSHIONS OR MATS WITH AIR

A lot, more, a lot more... parcels we send every day. We want them to be well packed, secured, look great, and that packing them does not take much time. It is possible now. Everyone who will pack and everyone who will unpack the package will appreciate the functionality, economy, appearance and optimization – everyone whose package will be filled and secured with air fillers in the form of cushions or air mats!
